Assignment 1

List out 20 use cases of the Internet of Things.

- IoT Sensors.

- IoT Data Analytics.
- IoT Connected Factory.
- Smart Supply Chain Management.
- Smart Barcode Readers.
- Smart Grids.
- Connected HealthCare System.
- Smart Farming.
- IoT Tracking and Monitoring System.
- Autonomous and Connected Vehicles.
- Companion Robots
- IoT Opens the Data Floodgates.
- Connecting Your Home to the Internet (of Things)
- Smart Watches, Fitness Trackers, and other Wearables

- Drones for Industrial and Search & Rescue Operations.
- Water Quality Management.
- Patient Surveillance/Remote Patient Monitoring.
- Smart Product Management.
- Remote Control Appliances.
- Predictive Maintenance.
- Fall Detection
- Near Field Communication (NFC) Payment
